**Subpart P—Appraisals**

**§ 3560.751 General.**

This subpart sets forth appraisal policies for Agency-financed multifamily housing (MFH) projects consisting of five or more rental units. Agency-financed housing projects with fewer than five rental units may be appraised in accordance with the Agency's single family housing appraisal policies established under 7 CFR 3550.62.

**§ 3560.752 Appraisal use, request, review, and release.**

(a) *Appraisal uses.* The Agency will use appraisals to determine whether the security offered by an applicant or borrower is adequate to secure a loan or determine appropriate servicing or preservation decisions. Appraisals used for Agency decision-making must be current, unless the Agency and the applicant, or borrower, mutually agree to

the use of an appraisal that is not current. A current appraisal is an appraisal with a report date that is not more than one year old.

(b) *Appraisal requests.* Appraisal requests must be in writing and must specify the client and other intended users, the intended use, the purpose, and the scope of work of the appraisal, including the type and definition of the value(s) to be developed.

(1) *Type of Value.* The appraisal request must indicate whether the “market value”, the “market value, subject to restricted rents”, or any other type of value of the housing project and related facilities is to be concluded.

(i) A request for “market value, subject to restricted rents” means the appraisal will take into consideration any rent limits, rent subsidies, expense abatements, or restrictive-use conditions that will affect the property as a result of an agreement with the Agency or any other financing source. Each type of financing involved, including, but not limited to, interest credit subsidy, low-interest loans from other sources, tax-exempt bond financing, tax credits, and grants, must be valued separately in the appraisal.

(ii) A request for “market value” means the appraisal will take into consideration the most probable price which a property should bring in a competitive and open market under all conditions requisite to a fair sale, the buyer and seller each acting prudently and knowledgeably, and assuming the price is not affected by undue stimulus. Implicit in this definition is the consummation of a sale as of a specified date and the passing of title from seller to buyer under conditions whereby:

(A) Buyer and seller are typically motivated;

(B) Both parties are well informed or well advised and acting in what they consider their best interests;

(C) A reasonable time is allowed for exposure in the open market;

(D) Payment is made in terms of cash in United States dollars or in terms of financial arrangements comparable thereto; and

(E) The price represents the normal consideration for the property sold unaffected by special or creative financing or sales concessions granted by anyone associated with the sale.

(2) “‘As-is’ Value” or “Prospective Value”. The appraisal request must indicate whether the “‘as-is’ value” or “prospective value” of the housing is to be concluded.

(i) “‘As-is’ value” means the value of the housing and related facilities as of the effective date of the appraisal. It relates to what physically exists and is legally permissible at the time of the appraisal and excludes all hypothetical conditions.

(ii) “Prospective value” means the forecasted value of the housing and related facilities as of a specified future date. For Agency appraisals, this date will typically be the projected completion date of proposed new construction or rehabilitation.

(3) *Section 8 project-based assistance*. Depending on the intended use of the appraisal, the Agency will specify whether or not section 8 project-based assistance will be considered in the valuation of the housing. The remaining term of the section 8 contract and the probability of subsequent renewal terms being authorized will be taken into consideration when making this determination.

(4) *Low-Income Housing Tax Credit (LIHTC) and other financing sources*. Depending on the intended use of the appraisal, the Agency will specify whether or not tax credits and other financing sources involved in the housing will be considered in the valuation of the housing.

(c) *Appraisal review*. All MFH appraisals that were not written by an Agency appraiser will be reviewed by an Agency appraiser, who will write and file a technical review report that complies with the Uniform Standards of Professional Appraisal Practice (USPAP) and Agency requirements.

(d) *Release of appraisals*. MFH appraisals procured by the Agency will be released to owners/applicants, from their own files, upon their request.

### § 3560.753 Agency appraisal standards and requirements.

(a) *General*. The Agency recognizes USPAP as the basic standards for appraisals. Appraisals used by the Agency must comply with USPAP and this subpart.

(b) *Appraisers*. MFH appraisals prepared for the Agency will be written by Agency appraisers or independent fee appraisers who are state certified general appraisers, certified in the state where the property is located. Technical review reports will be written by Agency state certified general appraisers.

(c) *Appraisal report*. The appraisal report format may be a form appraisal or a narrative appraisal. The Agency will specify the appraisal format that is most appropriate for the scope of work involved when the appraisal is requested.

(1) *Form appraisal reports*. The Agency will accept appraisal report forms that meet generally accepted industry standards, comply with USPAP, and have been approved by the Agency.

(2) *Narrative appraisal reports*. Narrative appraisal reports must, at a minimum, contain the following items:

- (i) Transmittal letter;
- (ii) Factual information about the property;
- (iii) Regional and neighborhood data;
- (iv) Description of the subject property;
- (v) Description of existing and planned improvements;
- (vi) A highest and best use analysis;
- (vii) A statement regarding any environmental issues, such as potential contamination of the property from hazardous substances, hazardous wastes, or petroleum products;
- (viii) A cost approach analysis (if applicable);
- (ix) A sales comparison approach analysis (if applicable);
- (x) An income approach analysis (if applicable);
- (xi) A reconciliation of the value indications derived from the included approaches to value; and
- (xii) A signed and dated certification of value.

(3) At the time an appraisal is requested, the Agency will specify either a complete or a limited appraisal and
